Science Abroad programs allow upper-year Physical or Life Sciences students to complete a research internship at one of several prestigious research facilities located overseas. Through this experiential learning program, students will collaborate with colleagues from other countries and explore problems of a global nature, while also earning course credit.

- **Hungary:** Chemistry
- **China or Taiwan:** Human Biology
- **Switzerland:** Physics

**Earn a full-year U of T credit overseas this summer!**

The Summer Abroad programs are designed to enrich students' academic lives by providing an exciting and educational international experience. Students complete full-year University of Toronto undergraduate degree credit courses from the Faculty of Arts & Science that are relevant to each location.

**SIGN UP FOR A SUMMER ABROAD COURSE IN 2019 AND:**
- Earn a full-year U of T credit in 3–6 weeks
- Observe and experience in real life what you learn in class
- Immerse yourself in the cultures of Asia, Africa, Europe, Australia or South America

There will be several information sessions during the 2018/19 academic year. Everyone is welcome to attend!

- **General sessions** about all Summer Abroad programs will be arranged on all three U of T campuses. Please check our website for further details.
- **Site-specific sessions** provide an excellent opportunity to hear from instructors and previous participants and to ask detailed questions about the particular program that interests you.

**SESSIONS START**

- **3:00 P.M.**

**Apply Online!**
The online application process begins in mid-December 2018. For more details check out summerabroad.utoronto.ca

**GENEROUS FINANCIAL ASSISTANCE** is available to eligible U of T students for most programs. Awards through Woodsworth College range in value from $2,000 to $4,000.

Summer Abroad programs begin!
The Summer Abroad program was exceptional! One of the best experiences I’ve had as a university student. The field trips added tremendous value to the course.

– Summer Abroad Student
